

# Weekly Programme Reminder

## To SeniorNet and U3A Members

This coming Monday 20 May we present a **SeniorHangout** entitled

### Using your Smartphone overseas

This video is presented by **Peter Campbell** who is the Chair of the SeniorNet Federation.

Peter has travelled extensively overseas and shares some interesting information about the **pros and cons** of using different options to stay safe with your **overseas communication** when using **Smartphones**.

The session introduces us to an **eSIM** which is a **digital form** of a **SIM card** as well as the potential dangers of using **public** Wi-Fi. It's an interesting SeniorHangout that should interest those planning an **overseas trip** or just **general information** about what is available to **Smartphone** users.

Please come along to this interesting session and expand your knowledge of **Smartphone communication**.

---

If you are just wanting assistance with any **tech problems**, please come along at **1 o'clock** and we will assist where possible.

**Venue: Arohanui Church 81 Middle Road Havelock North**

**Date: Monday 20 May 2024**

**Time: 1 o'clock for any general assistance and 1.30pm for the start of the SeniorHangout.**

---

**U3A offers an extensive programme of activities. Check them out at the link below.**
