

# Weekly Programme Reminder

## To SeniorNet and U3A Members

Next Monday 26 February is the second session on

## Android Smartphones

Last Monday's session focussed on the various features of the **Google Search Bar**.

This was well received with a good turnout of members. It was interesting and quite amazing as to what is available on our phones that we **don't know about**.

**Next Monday** we will do a quick review of the **Google Search Bar** before delving into some further interesting features and helping with any specific questions on a hands-on basis rather than a presentation.

Come along to this **second** session on **Android Smartphones** and learn more about this wonderful device we all carry with us.

**Date: Monday 26 February**

**Time: 1.00pm to talk about your tech problems. 1.30pm the second session on Android Smartphones.**

**Venue: Arohanui Church 81 Middle Road, Havelock North.**

---

A reminder to **SeniorNet members** to have another look at the **List of Activities** offered by **U3A Havelock North**. This is an interesting list and there could well be something that appeals to you.

How about **No. 25** on the list - **Planes, Trains and Automobiles**. This is a **new** activity and it sounds interesting. Finding out more is just a phone call away!

**Contact Trish Loye for more information on 06 878 5920**
