

Weekly Programme Reminder

To SeniorNet and U3A members

This coming **Monday 2 September** we are showing a SeniorHangout entitled

Own Your Online - Text messages and calls

This will be presented by **Haydn Green of CERT NZ**. Haydn will discuss how you can get the most out of **online services** while **keeping safe** at the same time.

This is the first of a **six-part webinar series** presented earlier this year. This particular **SeniorHangout** has proved the **most popular by the number of views** it received.

It is about **your security online** and is worth viewing.

Who is CERT NZ and what does CERT stand for?

CERT NZ is a **government agency** joining people and organisations - both locally and internationally - who are working in **cyber security** to help **better understand** and stay **resilient to cyber security threats**.

CERT NZ is your first port of call when you need to report a **cyber security** problem. **CERT NZ** supports businesses, organisations and **individuals** affected by **cyber security incidents** and provides **trusted** and **authoritative information and advice**.

CERT NZ stands for New Zealand's Computer Emergency Response Team

Venue: Arohanui Church 81 Middle Road Havelock North

Date: Monday 2 September 2024

Time: 1 o'clock to solve your tech problems and 1.30pm for the start of the SeniorHangout
