

Weekly Programme Reminder

To SeniorNet and U3A Members

The next two Mondays we will present sessions on different aspects of:

Android Smartphones

This coming week we are showing a **SeniorHangout** entitled:

“Google Search Bar, Google Lens on Android Smartphones”

What this simple little **search bar** can do is quite amazing. It is an interesting feature and one that you will find useful.

Come along to this first session on **Android Smartphones** and we will follow-up with a hands-on session the following Monday covering any other issues you may have.

Date: Monday 19 February

Time: 1.00pm to talk about your tech problems and at 1.30pm the SeniorHangout on Smartphones will take place.

Venue: Arohanui Church 81 Middle Road, Havelock North.

A reminder to SeniorNet members to have another look at the **List of Activities** offered by **U3A Havelock North**. This is an interesting list and there could well be something that appeals to you.
