

Weekly Programme Reminder

To SeniorNet and U3A members

This coming **Monday 13 May** we offer a general session on

Android Smartphones

Come along, ask questions . . . we'll try to answer them!

Two weeks later we are planning a follow-up **SeniorHangout** for your further **Smartphone** learning entitled

“Making Your Android Phone Smarter”

This activity will specifically deal with the **Play Store App** and what lies behind this important icon.

It's more than just a store to purchase Apps. It has depth to it. The video is interesting and informative.

A reminder will follow nearer the time.

Looking forward to seeing you this Monday, 13th May.

Venue: Arohanui Church 81 Middle Road Havelock North

Date: Monday 13 May 2024

Time: 1 to 3.00pm

I'd like to establish how many Apple iPhone Users we have in our two organisations.

Would you be interested to learn more about your iPhone if a separate group was arranged? A group for Apple iPhone Users only.

If so, please contact Ian Brown on 021 655 288, or Trish Loye on 06 878 5920.
